CONDITION: MEDIUM TO HEAVY OIL

The MOTIV™ Primal™ TV4 is the instinctive weapon for low to moderate rev bowlers that want to cross more boards down the lane in medium to heavy oil.

INNER CORE: THRUST™

The proven Thrust™ core is at the heart of the Primal™. The 2.54 RG (15# ball) provides length and strong backend continuation. This compliments the coverstock incredibly well.

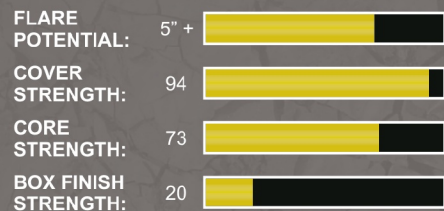

COVERSTOCK: VICIOUS™ PEARL REACTIVE

The skin on the Primal™ TV4 is the new Vicious™ Pearl Reactive. It has more surface texture (Higher Ra Value). This helps low to moderate rev bowlers create more hook. High rev bowlers will see a smooth strong backend motion.

FINISH: 2000 WET SAND / POWER GEL® POLISH

The Primal™ TV4 is sanded to 2000 at the factory and finished with MOTIV Power Gel® Polish.
