

# STRIKE WITH SPEED

A large, dark purple bowling ball with a glowing yellow arrow graphic pointing to the right. The word 'RIPCORD' is written in a metallic, silver font across the center of the ball.

**RIP  
CORD**

## MEDIUM OIL

Infuse your game with angle with the Ripcord™. Tuned to create as much angle and continuation through the pins as possible, the Ripcord™ is the ideal ball for generating incredible down lane motion on moderate volumes of oil. When the oil in the front part of the lane is depleted and moving in to create angle is the only option, the Ripcord™ will create that angle with ease.

## INFUSION™ REACTIVE

The latest development in pearl coverstock technology, the Infusion™ Reactive cover gives easy length with incredible down lane motion. This cover is tuned for today's higher viscosity oils to provide length without risking the ball slipping through the breakpoint.

## OBLIVION™ WEIGHT BLOCK

The Oblivion™ core is engineered to create as much angle and continuation through the pins as possible. A high RG and moderate differential produce easy length and downlane motion.

15# RG: 2.53

15# Diff: .047

Flare: 5"+

## 5000 GRIT LSP FINISH

A 5000 Grit LSP finish provides plenty of length through the front of the lane, while providing enough traction to create a strong backend motion.
