

MAKE A STATEMENT

LIGHT OIL

The Tag™ Cannon makes a very bold statement on light oil conditions. It provides easy length on higher friction lane surfaces and a fast response at the back of the lane. It's the way this ball goes through the pins that makes this ball so great.

AGILITY™ SFP REACTIVE

New Agility SFP (Skid-Flip Pearl) Reactive coverstock retains energy and unloads it on the backend. It is very clean with a fast response to friction.

HALOGEN™ WEIGHT BLOCK

The Halogen™ Weight Block provides proper continuation and maximum striking potential on the backend.

15# RG: 2.55

15# Diff: .037

Flare: 4"+

5500 GRIT LSP FINISH

The Tag™ Cannon is tuned with a 5500 Grit LSP to provide length through the front of the lane with a very fast response to friction on the backend.
