

DOMINATE THE DEEP

HEAVY OIL

Conquer the deep with the Trident™ Abyss. Merging the Turbulent™ asymmetric core and a modified Coercion™ cover, this is the strongest ball ever made by MOTIV® and is built to dominate in a flood of oil. The Trident™ Abyss is an obvious fit for speed dominant and low rev bowlers looking for more hook. Competitive bowlers will want to use it to cap off their MOTIV® arsenal with a very strong piece that provides control on heavy oil patterns.

COERCION™ HV3 REACTIVE

The Coercion™ HV3 (High Volume 3rd Generation) reactive cover on the Trident™ Abyss has been modified to dig even harder in heavy oil.

TURBULENT™ WEIGHT BLOCK

The Turbulent™ weight block provides a lower RG, high differential, and strong asymmetry to create maximum track flare.

15# RG: 2.49

15# Diff: .054

15# Int. Diff: .017

Flare: 7"+

2000 GRIT LSS FINISH

The 2-tone gray solid shell is tuned with a 2000 Grit LSS finish to provide maximum traction to make the turn in deep oil.
