

LEAD THE PACK

HEAVY OIL

The Jackal™ reigns supreme on heavy oil! For over a half-decade the Jackal™ line of bowling balls has been the dominant force for heavy oil. The latest addition to the line, the Alpha Jackal™ pushes the boundaries by providing more hook with the control and devastating continuation that you expect.

COERCION™ HV3 SOLID REACTIVE

The Alpha Jackal™ is all about creating traction in conditions where previous Jackals™ could not. Coercion™ HV3 Solid Reactive cover stock provides the traction needed on heavy or long oil patterns. This is the strongest cover ever used in the Jackal™ line.

PREDATOR™ V2 WEIGHT BLOCK

The Predator™ V2 asymmetric weight block driving the Alpha Jackal™ boasts a very low RG and loads of differential to maximize both revs and track flare.
15# RG: 2.47
15# Diff: .054
15# Int. Diff: .015
Flare: 7"+

2000 GRIT LSS FINISH

A 2000 Grit LSS finish provides plenty of traction in the oil to create added hook and control.
