

DRIVE SIDEWAYS

LIGHT-MEDIUM OIL

The MOTIV® Supra™ is a ball created specifically to push the limits. Combining an extreme, dual density core with a sideways pearl reactive cover, the Supra™ is capable of more down lane motion than any MOTIV® ball ever created for light-medium oil.

INFUSION™ PEARL REACTIVE

Infusion™ Pearl Reactive cover stock adds to the snap created down lane by the High Impulse™ weight block. This cover provides ease of length with a pronounced response to friction at the end of the pattern.

HIGH IMPULSE™ WEIGHT BLOCK

We modified the original Impulse™ core to push the limits with the High Impulse™! The high RG spins slowly through the front of the lane, while the dual density and high differential produce a violent skid-flip backend reaction.
15# RG: 2.57
15# Diff: .050
Flare: 5"+

5500 GRIT LSP FINISH

The 5500 Grit LSP finish provides plenty of length through the front of the lane with a pronounced backend reaction.
