

TURN UP THE HEAT

M MTVBTBROH // TRIBAL FIRE

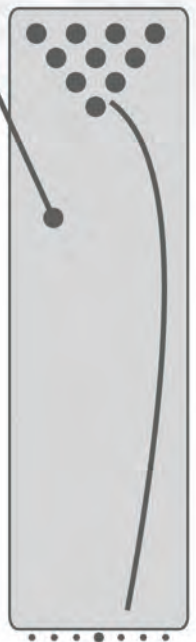

01 HALOGEN™ CORE

Turn up the heat with the new Tribal Fire. Engineered for light to medium oil, the Tribal Fire features the Halogen™ weight block and Fusion™ Hybrid Reactive coverstock technology.

For the typical bowler, the Tribal Fire provides the perfect combination of length and response to friction on light to medium oil conditions. It reads the pattern well to make a move at the right spot down the lane and retains energy for outstanding continuation.

02 FUSION™ HYBRID REACTIVE COVERSTOCK

03 BALL MOTION

The Halogen™ weight block was first used in the original Tribal, which was in Ronnie Russell's bag when he won the PBA Bear Open. The Halogen™ design provides length and moderate track flare.

CORE:	HALOGEN™				
FLARE:	4"+				
WEIGHTS:	16#	15#	14#	13#	12#
RG:	2.54	2.55	2.56	2.59	2.64
DIFF:	.036	.037	.038	.038	.031
INT. DIFF:					

the Tribal Fire features Fusion™ Hybrid Reactive cover technology. This is the first time a hybrid version of this cover stock has been released. The new hybrid cover stock allows the Tribal Fire to read the lane a touch earlier and provide a smoother motion.

CONDITIONS: LIGHT-MEDIUM OIL
COVERSTOCK: FUSION™ HYBRID REACTIVE
FINISH: 5000 GRIT LSP*
