

DOMINION OVER THE LANES **PRIDE™ LIBERTY**

MEDIUM OIL

The Pride line comes roaring back with the newest addition, the Pride Liberty. A fearless ode to the spirit of American craftsmanship, the hybrid Pride Liberty commands attention on and off the lanes. The Pride series is the benchmark for medium oil ball motion, and this new hybrid Pride Liberty is the stronger and more angular upgrade to the original Pride. This isn't just another bowling ball; it's a statement piece, standing as a powerful tribute to all things bold and indomitable.

DOMINION™ WEIGHT BLOCK

At its heart beats the mighty Dominion core. This beast features a moderate primary RG differential and low intermediate to dominate on medium oil and higher friction surfaces.

15# RG: 2.50 | 15# Diff: .042 | 15# Int. Diff: .010 | Flare: 5"+

DYNAMIC PROPULSION™ HYBRID REACTIVE

Wrapped around this core is the latest innovation in our arsenal - Dynamic Propulsion Hybrid Reactive coverstock. Imagine a cover that's cleaner than the Pride Dynasty, yet as assertive in its down lane motion as the Pride Empire. This hybrid cover blends the best of both worlds to create a ball motion that will get through the front of the lane with ease with plenty of teeth for added bite on the backend.

4000 GRIT LSS FINISH

A 4000 Grit LSS finish provides enough length through the front of the lane with plenty of teeth to read the mids and create a strong but controllable backend motion.
