

ASCEND™ LINE

Introducing the new Ascend line from MOTIV! Whether you're a newcomer eager to master the art of hooking the ball or seeking a step down from our Top Thrill lineup while staying true to the power of reactive resin, the Ascend is a fantastic option. The Ascend promises to elevate your game to new heights!

FLUX™ V2 WEIGHT BLOCK

The Flux V2 core offers a slightly boosted RG and Differential than the original Flux core to handle lower oil volumes with ease. This core is a fantastic entry level option as it offers a strong punch for newcomers.

15# RG: 2.59 | 15# Diff: .023 | Flare: 2"+

VITALITY PEARL REACTIVE

The new Vitality Pearl Reactive cover pairs with the Flux V2 core to ensure smooth handling of oil conditions that might challenge the Propel line. The Ascend line offers the performance of reactive resin at a great price point.
