PROPULSION™ FYJ PEARL REACTIVE

Meet the Propulsion FYJ Pearl Reactive cover—MOTIV's fastest, most aggressive pearl cover ever created. In 2009, we unleashed the GT1, our first pearl coverstock. Fifteen years later, after countless trials and relentless innovation, we've perfected it. The Propulsion FYJ (Fifteen Year Journey) coverstock is the pinnacle of our efforts, delivering a combination of strength and angularity that's nothing short of extraordinary.

5000 GRIT LSS FINISH

A 5000 grit LSS finish provides added length through the front of the lane while still providing plenty of traction for an explosive backend reaction.
