

UNLEASH UNSTOPPABLE BITE

JACKAL™ ONYX

HEAVY OIL

The claws are out with the new Motiv Jackal Onyx. This beast isn't just another ball in the Jackal line—it's a whole new level. We've taken everything that makes the Jackal line unstoppable and cranked it up. With cutting-edge coverstock tech building upon the Subzero Forge, the massive Predator V2 core, and Duramax Technology; the Jackal Onyx is here to devour the competition. This monster is built for maximum hook and relentless power.

PREDATOR™ V2 WEIGHT BLOCK

The Predator V2 is MOTIV's most dominant high-performance core. This core revs up fast and delivers insane flare, giving you the kind of hook that turns heads and breaks records.

15# RG: 2.47 | 15# Diff: .054 | 15# Int. Diff: .015 | Flare: 7"+

LEVERAGE™ HXC SOLID REACTIVE

The Leverage HXC solid coverstock is an evolved version of the Subzero Forge's Leverage MXC, but with even more grip and hook potential, giving you next-level traction without sacrificing backend power. Featuring Duramax technology, this cover holds surface better, meaning it performs the same in game three as it does on your first throw. No performance drop-off—just consistent, predictable results. And Duramax isn't just about endurance; it's about traction. This cover has massive teeth.

1000 GRIT LSS FINISH

With a 1000-grit LSS finish, the Jackal Onyx is dialed in to rip through heavy oil. Get your hands on the Jackal Onyx and unleash the claws.
