

# PRECISION AND POWER

## MEDIUM OIL

One of the most trusted cores in bowling is now being combined with a groundbreaking new cover in the MOTIV® Rogue Blade. This strong, angular weapon for medium oil slices through the competition. The Rogue Blade™ masterfully combines outstanding control in the mid-lane with a powerful response down lane.

## HEXION™ SE REACTIVE

This new shell builds upon the original angular Hexion™ cover with powerful new technology. Hexion™ SE is stronger in the oil and provides a faster response (more angular motion) down lane. The result is a substantially stronger motion than the original Hexion™ without sacrificing any angle.

## SIGMA™ WEIGHT BLOCK

The proven Sigma™ core, masterfully merging a moderate differential with a low RG, provides the Rogue Blade™ with easy revs and outstanding control in the mid-lane.

15# RG: 2.47

15# Diff: .047

Flare: 5"+

## 4000 GRIT LSS FINISH

The 4000 grit finish gives the bowler an outstanding control without sacrificing great angularity.
