

TURN UP THE HEAT

LIGHT OIL

The Hydra™ is one of the cleanest and most angular bowling balls ever produced by MOTIV®. Bowlers competing in high friction environments and rev dominant players will gravitate to the Hydra™ as a perfect angular ball to add to their arsenal. Tournament bowlers looking for a dry lane performance bowling ball need Hydra™ in their bag. Unlike entry level pearls, this beast can strike from the deep and provides more angles of attack.

HEXION™ LFP REACTIVE

The Hydra™ utilizes Hexion™ LFP Reactive technology to provide length through the front of the lane with an explosive backend reaction.

HALOGEN™ WEIGHT BLOCK

The high RG and low differential Halogen™ core provides easy length with an impressive backend motion.

15# RG: 2.55

15# Diff: .037

Flare: 4"+

5000 GRIT LSP FINISH

A 5000 Grit LSP finish enables the Hydra™ to slide through the front of the lane with ease while maintaining a strong but predictable backend motion.
