

# DOMINION OVER THE LANES

## MEDIUM OIL

Versatility. Continuation. The Pride™ from MOTIV® is the ultimate benchmark ball. With a brand-new core and cover stock, it is unique from anything currently available from MOTIV® and fits perfectly into the middle of the ball guide. Featuring the new Dominion™ core, the Pride™ can be used on moderate volumes of oil and higher friction than the typical asymmetric bowling ball.

## COERCION™ UCS SOLID REACTIVE

The Dominion™ core is encased with the latest reactive Coercion™ cover stock from MOTIV® called UCS – Ultimate Continuation Solid. This new UCS Reactive cover stock is the most versatile Coercion™ shell to date and complements the unique specifications of the Dominion™ core perfectly.

## DOMINION™ WEIGHT BLOCK

The new asymmetric Dominion™ core provides the versatility of an asym without some of the traditional drawbacks.

## 4000 GRIT LSS FINISH

A 4000 Grit LSS finish complements the core and coverstock combination to provide a controllable ball reaction on moderate volumes of oil.
