The claws are out with the new Motiv Jackal Onyx. This beast isn't just another ball in the Jackal line — it's a whole new level. We have taken everything that makes the Jackal line unstoppable and cranked it way, way up. With cutting-edge coverstock tech building upon the Subzero Forge, the massive Predator V2 core, and Duramax Technology; the Jackal Onyx is here to devour the competition. This monster is built for maximum hook and relentless power.
