

# STAND OUT FROM THE PACK

## HEAVY OIL

The Jackal™ series represents the ultimate level of high performance and the Jackal™ Flash is an incredible addition. It is the strongest asymmetric pearl that we have ever developed. When bowling on higher volumes of oil with a solid asymmetric ball, the transition ball should provide similar strength, but be cleaner through the front of the lane with a faster response. And that is precisely what the Jackal™ Flash is built for.

## INFUSION™ HV PEARL REACTIVE

This performance packed technology provides length through the front of the lane and the powerful angle needed when transitioning on heavy oil patterns.

## PREDATOR™ V2 WEIGHT BLOCK

The asymmetric Predator™ V2 core has a super low RG and is packed with differential to maximize revs and track flare.

15# RG: 2.47

15# Diff: .054

Flare: 7"+

## 5000 GRIT LSP FINISH

The 5000 Grit LSP finish merges with the Infusion™ HV Pearl Reactive technology to provide pin-crushing continuation.
