

# UNLEASH YOUR WILD SIDE

**M** MTVBPRGKH // PRIMAL RAGE REMIX

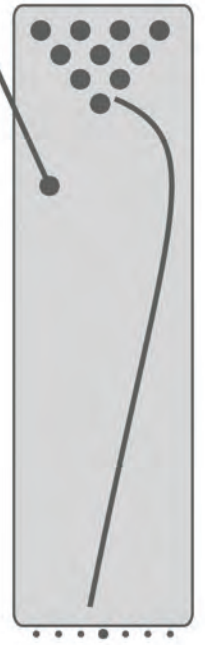

## 01 IMPULSE™ V2 CORE

The Primal Rage™ Remix is here! The original Primal Rage™ (the #redball) made people take notice in MOTIV® technology. Now, we've amped up performance even more with new Raw Fusion™ coverstock technology. Engineered for heavy oil, the Primal Rage™ Remix provides the length needed with an aggressive backend motion. And, of course, it delivers the continuation that you have come to expect from MOTIV®.

## 03 BALL MOTION

## 02 RAW FUSION™ REACTIVE COVERSTOCK

### 01

The dual-density Impulse™ V2 features a high RG and differential to push the ball deeper down the lane for a devastating backend and create the track flare needed to make a bold move on heavier volume patterns.

<b>CORE:</b>	IMPULSE™ V2				
<b>FLARE:</b>	5"+				
<b>WEIGHTS:</b>	16#	15#	14#	13#	12#
<b>RG:</b>	2.54	2.55	2.56	2.60	2.67
<b>DIFF:</b>	.049	.050	.054	.055	.040
<b>INT. DIFF:</b>					

### 02

The new Raw Fusion™ Reactive coverstock compliments the core physics. Instead of hooking early, this cover allows the Primal Rage™ Remix to retain energy in heavier oil environments and make a strong move as it encounters more friction.

**CONDITIONS:** HEAVY OIL  
**COVERSTOCK:** RAW FUSION™ REACTIVE  
**FINISH:** 4000 GRIT LSS\*
