

# SET YOUR GAME ON FIRE

Set your game on fire with the QZ2 Backdraft for light to medium oil. The Quadfire™ core is engulfed by the Fire Pearl and Solid Black MOTIVator-Z™ Reactive Hybrid shell.

Adding fuel to the fire, the 2000 polished finish has an increased Ra value to read the lane slightly earlier and cover more total boards than the original QZ2. Still, the QZ2 Backdraft gets through the heads cleanly and displays excellent backend motion.
