

STRIKE WITH CRUEL INTENTIONS

The Cruel Intent™ is a dominating power pearl for heavy oil. It is the cleanest and most angular asymmetric ball MOTIV™ has ever produced.

At the heart of the Cruel Intent™ is the huge Sinister™ core. It harnesses asymmetry to boost track flare and promote proper transition in very low friction environments.

Proven to be a very angular and continuous cover, Fusion™ Pearl Reactive technology is used on the Cruel Intent™. This shell is special because it produces both incredible angle and devastating continuation.
