

UNLEASH ANGLE

MEDIUM-HEAVY OIL

Let's get right to it...the new Trident™ Nemesis is undoubtedly the most angular asymmetric ball ever created by MOTIV®! It proudly features our latest Infusion™ HV (High Volume) Pearl Reactive cover technology and new Sidewinder™ asymmetric weight block design. Intended for medium-heavy oil conditions, the Trident™ Nemesis has impressive backend motion and powerful continuation.

INFUSION™ HV PEARL REACTIVE

The Infusion™ HV Pearl Reactive cover used on this Trident™ is at the forefront of innovation. Building upon the coverstock technology from the Supra™, this cover creates more traction in the oil, yet still creates all the angle a bowler could need.

SIDEWINDER™ WEIGHT BLOCK

The new Sidewinder™ weight block expands the MOTIV® spec range within the asymmetric category to provide drillers more influence over ball motion.

5500 GRIT LSP FINISH

The gorgeous Teal Pearl and Black Pearl cover has a polished 5500 Grit LSP finish to provide length through the front of the lane and quick response to friction.
