

A **DEADLY** REACTION

LIGHT-MEDIUM OIL

The Fatal Venom™ produces a shape that is clean through the front of the lane with a moderately angular down lane motion on light-medium oil conditions. This shape provides a stable reaction and complement to the angularity of the Supra™ and the smoother motion of the asymmetric Venom™ Recoil. The Fatal Venom™ will provide a great option when bowlers need to clear the front without sacrificing control down lane.

INFUSION™ PEARL REACTIVE

This proven pearl cover gives great length and angularity that will allow bowlers to clear the front of the lanes and create angle with ease.

GEAR™ WEIGHT BLOCK

The symmetric Gear™ core combines a low RG and low Diff to provide a fast spinning core with minimal track flare that helps to provide stability and consistent ball motion.

15# RG: 2.48

15# Diff: .034

Flare: 3"+

5500 GRIT LSP FINISH

The 5500 Grit LSP finish merges with the Infusion™ Pearl Reactive technology to provide length and angle in high friction conditions.
