

# STRIKE WITHOUT WARNING

## LIGHT-MEDIUM OIL

Finally, the Venom Shock Pearl (VSP) has arrived! Featuring our new Hexion cover and a dual density weight block, the VSP is the perfect complement to the original solid edition, which is one of the most popular MOTIV balls ever because it is so versatile on light to medium oil. Bowlers currently using the solid edition will now have an outstanding complementary ball for that third game when the oil pattern is broken down.

## HEXION™ MFP REACTIVE

To provide easy length and a fast response to friction, a new Hexion MFP (Medium Friction Pearl) Reactive cover is utilized on the VSP.

## TOP GEAR™ WEIGHT BLOCK

The dual density Top Gear™ weight block provides the Venom Shock Pearl a more angular backend motion than the original solid ball.

## 5500 GRIT LSP FINISH

At the factory, the Purple Pearl cover stock is tuned with a 5500 Grit LSP finish to boost the performance attributes of MOTIV's Hexion™ technology.
